

# The Sand Trap in South Bethany - TV Remotes

To switch between the Roku, the DVD player and the cable box, use the TV Remote to change the Input/Source.

By pressing the Input/Source button you are essentially toggling between various ports on the TV until you select the one to which the device you want to use is connected. Make sure the device is on!

Input/Source options include: Cable, TV, HDMI1, HMD2, etc.
